

Sound Masking Solutions

Reduce Stress, Eliminate Distractions, Increase Privacy

Incorporate a custom sound masking system into your environment and create a more peaceful, secure and focused atmosphere. Our high-quality sound masking equipment fills the sound spectrum in your environment with low-level background noise; allowing conversational noises to go unheard.

Sound Masking Benefits:

- Increases Privacy
- Reduces Distractions
- Protects Private Conversations
- Increases HCAHPS Scores
- Complies with HIPAA regulations
- Improves Productivity
- Reduces Stress by 27%
- Decreases distractions by 51%

Speech Privacy Systems provides more than sound masking systems. We provide peace of mind when we work with you to determine the necessary equipment along with the placement. Using a *consultative* approach, we discuss the areas most affected by acoustical issues in order to appropriately address noise concerns in an effective and affordable manner. Our knowledgeable team is ready to make your environment a peaceful haven for your clients with sound masking services.

*** All sound masking systems come with a 60-day return policy! ***
